280.74	Failure to maintain closure records for at least 3 years	\$0.00			Tanks Removed

Comments

Source	Date	Comments
eorzech	07/10/12	Not entered into database previously. ODEQ lists on their latest list, dated 5/7/12, that the five tanks are closed. The exact closure date is unknown and would need to be ascertained from ODEQ. Closure date is the date the fEPA file was last archived.
eorzech	07/10/12	In the 3-8-94 Culver to Mintkin ltr Culver states "Plse advise by return mail by April 1, your proposed schedule for achieving UST compliance." (On 3-3-94, Carl Kitz, R-10 wrote Bob Laycok, Maintenance Supervisor of Pac. Western Forest Industries that a Failure to have a written spill prevention plan may result in substantial civil penalty being imposed.) The Atty for PacWFI was Lew Delo. There was no response in the file but the tanks have been removed.
